May 26th Rosa Koire

Rosa Koire joins me again to talk about what it's like to be "Delphi'd". Don't know what delphi'd is? Well, you'll be shocked to know it is being done to you more often than you think. In fact, trained facilitators work with all our government departments on all levels to manipulate the public into going along with their "predetermined" outcome. They like to dupe you into thinking you had a say in what is happening when in reality, you don't. Now, ain't that just grand?

Sat Aug 6th " Behind The Green Mask Conference" go here for more info.
