# WHICH PHILOSOPHY OF RIGHTS?

| Nature<br><i>Source</i> | Individual Rights<br><i>US Declaration of Independence</i>  | Community rights<br><i>UN Declaration of Human Rights</i>   |
|-------------------------|---|---|
| Purpose of Government   | <p>Protect the natural or unalienable rights of each individual.</p> <p><i>“That all men are created equal, that they are endowed by their creator with certain unalienable rights ...”</i></p> | <p>Control the individual for the greater good of a global community.</p> <p><i>“Rights and freedoms may in no case be excercised contrary to the purposes amd principles of the United Nations...”</i></p> |
| In short                | <p>You're born with rights, government exists to protect them.</p> <p>You and the product of your labor belong to you.</p>  | <p>Government grants, restricts, or withdraws your rights according to its needs.</p> <p>You and the product of your labor belong to the community.</p>   |
