

EDUCATION FOR THE NEW WORLD ORDER

The Hand That Rocks The Cradle Rules The World

Education for the New World Order is unfolding before your eyes.

Common Core, No Child Left Behind, Race To The Top, Goals 2000, School To Work, titles designed to make you “feel-good” about our so-called “education” system, all “designed” for the same goal: indoctrination into the *New World Order*. What they really do is *brainwash* kids to be compliant, docile participants in “group think” who will never question what they’ve been told, nor ever contemplate resisting their

“programming”.

Most people think the term *New World Order* is just meaningless dribble some *conspiracy theorist* said. They think there is nothing to see or to worry about, just ignore it. Nothing could be further from the truth. There is something to see and something to worry about.

—~~Education~~ indoctrination is the key to success in turning the world upside down. In his novel 1984 George Orwell wrote “Ignorance is strength”, and indeed it is. As your ignorance grows, so does *their* strength. He also wrote “Freedom is Slavery”. They (The NW0 aka the money-changers and their lackeys), have been using education to forge the chains of your

bondage, one link at a time, for a very long time.

Voltaire said, " It is difficult to free fools from the chains they revere."

All the links below will give you much insight into what is and has been happening for decades. In fact, the plan to dumb down the populace started in the 1890's. I know that is hard to believe, but the people behind this (follow the money) and their front men work at a snail's pace, otherwise you'd slice their throats and they know it. They stealthily plod along and before you know it, you have a population of ignoramuses who believe anything they are told, without question.

I really suggest you take the time to watch these videos. Daily we are all impacted by “education” or the *lack thereof*. No one is immune from the effects of an ignorant populace – no one.

[The “Common Core” Con job](#)

[Math Education An Inconvenient Truth](#) Watch the ludicrous way they *pretend* to teach math. No wonder

cashiers can no longer make change.

[Common Core Social Justice Indoctrination](#) How they teach kids to use emotion to manipulate, rather than facts to educate.

[Common Core no literature need apply](#) Let's read indoctrination manuals instead.

Watch the video below to see an example of a Common Core math question (4 minutes)

[Common Core](#) They purposefully use tactics to make it impossible for children to easily grasp concepts, i.e. learn. They manipulate childrens' psyche. Next step they'll say your kid needs psychiatric drugs [Look here](#)
