

# WHAT YOU DON'T KNOW ABOUT UN AGENDA 21

aka Local Agenda 21 & “sustainable development”

**WILL SHOCK YOU!!!**

It is a plan that calls for international control & regulation of virtually every aspect of human activity that might impact the environment, which is essentially EVERYTHING YOU DO- eat, drink, cook, drive, play, work, and LIVE.

Maurice Strong, UN Secretary General - 1992 Rio de Janeiro United Nations Conference on Environment and Development (UNCED) said "...Current lifestyles and consumption patterns of the affluent middle class involving high meat consumption and large amounts of frozen and convenience foods, use of fossil fuels, appliances, home and workplace air-conditioning, and suburban housing are **NOT** sustainable. So, what does he mean by **NOT** Sustainable? <http://sovereignty.net/p/sd/strong.html>

Translation: YOU will **NO** longer be allowed to have them.

J. Gary Lawrence, 1998 UK, UNEP Conference said

..."Participating in a UN advocated planning process would very likely bring out many... who would actively work to defeat any elected official... undertaking Local Agenda 21/Sustainable Development. So, we call our process something else such as "comprehensive planning," 'growth management' or 'smart growth.'" <http://www.unedforum.org/publications/millennium/mill%20paper2.pdf>

Translation: They will lie to you & deceive you so **YOU** won't know what they are *really* doing.

Urban Growth Boundary - UGB: "The urban growth boundary (UGB) marks the separation between rural and urban land." "Land *inside* the UGB supports urban services such as roads, sewer, water, parks, schools and fire and police protection that create thriving places to live, work and play."

**Translation:** Because services such as roads, sewer, water, etc. will **NOT** be supplied to land OR (supported) for land outside of the UGB, land outside the boundary will become worthless...and impossible to live on. After all, you CAN'T live without water now can you??

Property on the *inside* of the line will become so valuable that only the wealthy elite will be able to afford desirable locations. People will be packed like sardines in a can. "Density" levels will rise to whatever numbers the social planners decide is appropriate. <http://www.metro-region.org/article.cfm?articleid=266>

They've now changed UGB to "utility service Area" – since the word *boundary* made people ask too many questions...and they can't have that.

**What does "social justice" really mean?** It means

- progressive taxation
- income redistribution
- property redistribution
- equality of opportunity
- equality of outcome

Social justice can be defined as the system of justice predicated on the central dispensation of "rights" to various groups at various times. These rights are granted or denied in accordance with the policies and procedures thought necessary to advance the central authorities latest iteration of "common good" and "fairness". <sup>1</sup> <http://www.cesj.org/thirdway/economicjustice-defined.htm> *"If some people had wings and others didn't, and the government wanted to enforce "fairness," soon no one would have wings. Because wings cannot be redistributed, they can only be broken. Likewise, a government edict cannot make people smarter or more capable, but it can impede the growth of those with the potential."* Oleg Atbashian author "Shakedown Socialism"

Social justice is in contrast to the uniquely American notion of "equal" justice. Equal justice requires the establishment of a judicial system that protects individual rights. Equal justice supports true diversity — a respect for the independence and unalienable rights of the individual and genuine tolerance for individuality. Social justice denies individuality and equality. Social justice denies freedom and supports bondage. If you value your freedom and liberty-- join us!!!!!!
